About This List

Bill Freeman N4NJJ launched the Las Vegas Ham Radio website and Facebook page in 2014 to provide a one-stop shop for all pertinent ham radio information in Las Vegas. With 32 million people visiting Las Vegas annually, there was a need for crowd-sourced information to be compiled in one location. N4NJJ and www.LasVegasHamRadio.com provide this list as a service to the local two-way enthusiast community. Because of their recreational and volunteer nature, two-way enthusiast nets come and go all of the time. The information provided here was last checked in May 2022. Email n4njj@n4njj.us for additions, deletions, corrections, or inquiries.
